

## **2<sup>nd</sup> ANNUAL CONTAINER & FRIEGHT LOGISTICS CONFERENCE – 27,28,29 AUGUST 2007**

**Is bayhead congestion a regular frustration for you?**

**Is your freight turnaround time slower than normal?**

**Are you overspending on budget?**

**Are bottlenecks in the supply chain one of the reasons that you are experiencing delays?**

**The ripple effect will detrimentally impact SA's potential of growing as a regional hub.**

**Can you afford for this to happen?**

Containerised freight is fast becoming a global trend and it is up to the industry at large, including government to ensure that South Africa and Africa as a continent can compete on a global scale and emerge as the leaders in the containerised freight industry.

### Strategies and Solutions To Be Discussed At This Event:

- Outlining components that hamper capacity building at ports;
- Discussing protocol for how containers should be handled at ports;
- Optimising material handling and what security measure will be taken to enhance safety and security of containers;
- Seeking innovation in maximising space usage at ports and terminals;
- Contracting of containers and the effect it has on cargo being moved;
- Assessing future participation from the public and private sector in regulating the industry;
- Synchronising intermodal connectivity in South Africa.

Do Not Miss This Event... From gaining an understanding of RFID tagging to alleviating capacity and infrastructure challenges, this event is not to be missed! It is the perfect knowledge sharing opportunity to ensure that you are equipped to overcome the challenges facing the freight industry. Do not delay... Register today for Container Logistics 2007!
